EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with M. Taken on 12-22-2006.

2. The application has been amended as follows:

- Claim 16, line 8, "for" before "receiving" has been replaced with —and—.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

- The closest cited art—GB 2,079,178 and Clausen '120—fail to anticipate or render obvious, alone or in any proper combination, the concentric arrangement of the posts and bolts of the base with the telescopic sleeves of the end caps for applying axial compression, wherein the sleeves include a seal engaging one another and the sub-interiors of the sleeves (making up the column) are sealed from communication with the hollow interior of the filter media. In Clausen, the sub-interior of the telescopic sleeves (112, 130) is not sealed from the hollow interior of the filter because of flow openings 118.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.
